

K-Love supports many communities through their music ministry, spiritual support that is available by phone and discussion on the radio. We have supported K-Love financially for many years. Our community does not have access to other spiritual radio stations and would be at a loss. We listen to K-Love at home & while in the car.

K-Love is there solely for the public's interest as they are non-profit & offer uplifting spiritual support to listeners, some of whom depend upon such support when in crisis situations. It is easy to turn on the radio as opposed to calling someone or seeking professional help. They are there all of the time.
